

The Importance of Resilience and Well-Being in the Workplace

Monday, June 26, 2023

Speaker: Beth Rutkowski, MPH

MAT ECHO™ Staff: Gloria Miele, PhD,
Thomas E. Freese, PhD, and Cheryl Ho, MD

Indigenous Land Acknowledgement

- We respectfully acknowledge that we live and work in territories where Indigenous nations and Tribal groups are traditional stewards of the land.
- Please join us in supporting efforts to affirm Tribal sovereignty across what is now known as California and in displaying respect, honor and gratitude for all Indigenous people.

Whose land are you on?

Option 1: Text your zip code to 1-855-917-5263

Option 2: Enter your location at <https://native-land.ca>

Option 3: Access Native Land website via QR Code:

An aerial, high-angle photograph of a large, diverse crowd of people gathered in a public square or park. The people are seen from above, filling the frame with various colors of clothing and accessories. The text 'PEOPLE FIRST' is overlaid in large white letters across the center of the image.

PEOPLE FIRST

Stop stigma and discrimination,
strengthen prevention

World Drug
Day 2023

Together we can stop stigma and discrimination and strengthen prevention, [treatment](#) & care.

All other relevant financial relationships have been mitigated by conducting a peer review of the content used for this session.

Starting Off with a Few Key Definitions

- ▶ **Positive work and learning environments** are safe and healthy, support the well-being of health workers and learners, and foster ethical and meaningful training and practice (NASEM, 2019).
- ▶ **Professional well-being** is a “function of being satisfied with one’s job, finding meaning in work, feeling engaged at work, having a high-quality working life, and finding professional fulfillment in work” (Danna and Griffin, 1999; Doble and Santha, 2008).
- ▶ **Resilience** is the ability of an individual, organization, “community, or system to withstand, adapt, recover, rebound, or grow from adversity, stress, or trauma” (NASEM, 2019).

What is Resilience? - All the “Rs”

- ▶ Ability to handle setbacks and deal with chronic stress
- ▶ It’s all about **recharging**, not enduring
 - ▶ **Recovering, refueling, and resting**
- ▶ Chronic stress can lead to extreme exhaustion and burnout
- ▶ Professionals can influence and impact their team’s and organization’s resilience through words and actions
 - ▶ *In order to do so, you must build and maintain your self-resilience first!*
 - ▶ *This requires a mindset shift*

“3 by 2 Morning Prioritization” - A Practical Exercise

- ▶ Flexibility is key! - Find small blocks of time (time confetti)
- ▶ Instead of jumping straight into checking email or returning phone calls, you:
 - ▶ **2 minutes:** Sit and let the mind settle into focus, calm, and clarity
 - ▶ **2 minutes:** Consider most important priorities for the day
 - ▶ **2 minutes:** Plot priority activities into calendar

SOURCE: Accenture, 2023; adapted from Dr. Amer Kaissi, <https://www.issup.net/knowledge-share/publications/2023-01/power-resilience>

Work-Life Balance < Achieve Alignment

- ▶ Establish boundaries between professional and personal life
 - ▶ Sometimes you have busy stretches with extreme imbalances
- ▶ Be flexible and work intentionally to re-establish boundaries when busy stretches are over
 - ▶ Example: You may need to work during evenings and on weekends during busy seasons with tight deadlines, though that should be the exception, not the rule

The Surgeon General's Framework for Workplace Mental Health and Well-Being

- ▶ Centered on the worker's **voice** and **equity**
- ▶ Five Essentials support workplaces as **engines of well-being**
- ▶ Each Essential is grounded in two **human needs**
- ▶ Creating a plan to enact these practices can **strengthen the essentials** of workplace well-being

The Five Essentials for Workplace Mental Health and Well-Being

Protection from Harm

- Prioritize workplace physical and psychological safety
- Enable adequate rest
- Normalize and support mental health
- Operationalize DEIA* norms, policies, and programs

Connection & Community

- Create cultures of inclusion and belonging
- Cultivate trusted relationships
- Foster collaboration and teamwork

Work-Life Harmony

- Provide more autonomy over how work is done
- Make schedules as flexible and predictable as possible
- Increase access to paid leave
- Respect boundaries between work and non-work time

Mattering at Work

- Provide a living wage
- Engage workers in workplace decisions
- Build a culture of gratitude and recognition
- Connect individual work with organizational mission

Opportunity for Growth

- Offer quality training, education, and mentoring
- Foster clear, equitable pathways for career advancement
- Ensure relevant, reciprocal feedback

Let's do a deep dive into each of
the five key essentials

Essential #1: Protection from Harm

- ▶ Rests on two human needs – *safety* and *security*
- ▶ Workplace safety means all workers are in a **safe and healthful work environment**, protected from physical harm, injury, illness, and death
- ▶ People cannot perform well at work if they feel physically or psychologically unsafe
- ▶ Organizations can further **normalize and support mental health** while decreasing stigma at work by validating challenges, communicating mental health and well-being as priorities, and offering both support and prevention services
- ▶ Prioritizing DEIA norms means **operationalizing relevant policies and programs in ways that ensure safety**, including confronting structural racism, microaggressions, ableism, and implicit bias

Essential #2: Connection & Community

- ▶ Rests on two human needs - *social support* and *belonging*
- ▶ Belonging is the feeling of **being an accepted member** of a group, or of **connectedness** given one's interpersonal relationships
- ▶ Organizational cultures that promote belonging can **foster a powerful protective force** against bias, discrimination, and exclusion in the workplace
- ▶ Clear and consistent communication between staff and leaders is **foundational in building trust**.
- ▶ The future of work includes both remote and hybrid work, resulting in a need to be intentional about **how to build teams, communicate, and collaborate**

Essential #3: Work-Life Harmony

- ▶ Rests on two human needs - *autonomy* and *flexibility*
- ▶ Organizations that increase worker autonomy and provide greater flexibility have workers who are **more likely to succeed** and **retain staff longer**
- ▶ It is important to make schedules **as flexible and predictable** as possible
- ▶ When leaders and supervisors **set, respect, and model clear boundaries** between work and home life, workers report a **greater sense of well-being**

Essential #4: Mattering at Work

- ▶ Rests on two human needs - *dignity* and *meaning*
- ▶ Studies have shown that having meaning and purpose **reduces the risk for health complications** such as heart attacks and stroke, and when connected to work, can **lead to improved productivity and innovation**
- ▶ When people feel appreciated, recognized, and engaged their **sense of value and meaning increases**, as does their **capacity to manage stress**
- ▶ Shared purpose helps to **generate pride and fuel motivation**, all while reducing stress - organizations can help workers to **see the connection between** their day-to-day work and the purpose and mission of the organization

Essential #5: Opportunity for Growth

- ▶ Rests on two human needs - *learning* and *accomplishment*
- ▶ When organizations create more opportunities for learning, accomplishment, and growth, workers become **more optimistic about their abilities** and **enthusiastic about contributing** to the organization
- ▶ Employers can informally promote growth opportunities by showing genuine interest in workers through **personal encouragement, coaching, and mentorship**
- ▶ Transparent career pathways and advancement opportunities helps to **foster inclusion and diversity** in the workplace
- ▶ Feedback should be **positive, collaborative, and outcome-oriented**

Conclusion and Next Steps

- ▶ The Framework emphasizes the connection between the well-being of workers and the health of organizations
- ▶ It offers a foundation and host of resources that can be used by workplaces of various sizes, across many industries
- ▶ The most important asset in any organization is its **PEOPLE!**
- ▶ By choosing to center their voices, we can ensure that everyone has **a platform to thrive**

Workplace Well-Being Resources

- ▶ Reflection Questions
- ▶ Practice Examples
- ▶ Toolkits, Tips, Assessments, Directories, Research, Campaigns, etc.
- ▶ Visit: <https://www.hhs.gov/surgeongeneral/priorities/workplace-well-being/resources/index.html>

National Plan for Health Workforce Well-Being

Resources for Health Care Worker Well-Being: 6 Essential Elements

- ▶ The vision is that patients are cared for by a health workforce that is **thriving** in an environment that **fosters well-being**
- ▶ Six essential elements based on *Organizational Evidence-Based and Promising Best Practices for Clinician Well-Being*

Compendium of Resources - Strategies and Tools to Take Action to Improve Clinician Well-Being

- ▶ Access a wealth of resources at: <https://nam.edu/compendium-of-key-resources-for-improving-clinician-well-being/>
- ▶ Full National Plan for Health Workforce Well-Being available at: <https://nap.nationalacademies.org/catalog/26744/national-plan-for-health-workforce-well-being>

SAMHSA Mental Health Technology Transfer Center (MHTTC) Provider Well-Being Initiative

- ▶ The MHTTC Provider Well-Being Initiative was established to support provider well-being and work with agencies to implement organizational-level interventions that optimize provider satisfaction and health.
- ▶ Additional resources are available at:
<https://mhttcnetwork.org/centers/mhttc-network-coordinating-office/provider-well-being>

Resource Spotlight - Practicing Resiliency and Flexibility at Home

▶ Time Management

- ▶ Even a 5-minute walk is better than no walk at all
- ▶ Start small - incremental change is more likely to become permanent

▶ Ask for, and accept, help

- ▶ Create a household/family schedule
- ▶ Give yourself grace

▶ Make space for joy without guilt

- ▶ Consider a hobby
- ▶ Daily journaling

▶ Healthy eating

- ▶ Meal preparation
- ▶ Pre-order groceries
- ▶ Stash healthy snacks
