Pre/Post-Assessment Form (Updated: 23 January 2007)

Treatnet Training Volume A:
Screening, Assessment, and Treatment Planning

Please take 30 minutes to complete the following pre/post-assessment form. Your responses are completely confidential. The goal of these assessments is to evaluate the effectiveness of the capacity building program and the training activities, not to evaluate you personally. Your responses are very important to us. Please do not hesitate to ask the assigned person if you have questions.

Volume A, Module 1: Screening and Brief Intervention

1. Self-report screening instruments can:
   a. □ Provide a drug/alcohol assessment
   b. □ Provide an objective measure of drug/alcohol use
   c. □ Identify potential drug/alcohol problems
   d. □ All of the above

2. Brief interventions often include (check all that apply):
   a. □ Feedback about the client’s drug/alcohol use
   b. □ Advice on how to cut down on one's drug/alcohol use
   c. □ Motivational techniques
   d. □ Educational information about drug/alcohol risks

3. The Alcohol, Smoking, and Substance Use Involvement Screening Test (ASSIST) asks questions about:
   a. □ Substance use in one's lifetime
   b. □ Social, legal, and financial problems
   c. □ Injection drug use
   d. □ All of the above

4. Primary care is a good place to do screening and brief intervention because (check all that apply):
   a. □ Most physicians routinely ask patients about their drug/alcohol use
   b. □ Patients expect primary care staff to ask about their drug/alcohol use
   c. □ Substance abuse involves many health risks
   d. □ Primary care providers are usually the first point of contact with the health system
5. Which item below is NOT one of the main principles of Motivational Interviewing?
   a. Express empathy
   b. Develop discrepancy
   c. Teach recovery skills
   d. Support self-efficacy
   e. Roll with resistance

6. The Addiction Severity Index (ASI) consists of:
   a. 6 Sections
   b. 7 sections
   c. 8 sections
   d. None of the above

7. The purpose of the ASI is to: (check all that apply)
   a. Provide a comprehensive intake assessment and intake summary for the basis of a biopsychosocial summary
   b. Provide clinical information necessary for treatment planning
   c. Collect necessary data for national projects to track trends, answer questions, and set policy.
   d. None of the above

8. Which of the following is NOT an Interviewer Instruction:
   a. Leave no blanks
   b. It is OK to answer the question for the patient
   c. X = Question not answered
   d. None of the above

9. When introducing the ASI, you should inform the participant of the following:
   a. All clients receive the same standard interview
   b. There are seven potential problem areas or Domains
   c. The interview will take about 50 – 60 minutes
   d. All of the above

10. Which is not on the Client Rating Scale:
    a. Never
    b. Slightly
    c. Moderately
    d. Considerably
    e. Extremely
11. The ASI is:
   a. ☐ A personality test for substance abuse
   b. ☐ A diagnostic test for substance abuse
   c. ☐ An assessment of problem areas caused by substance abuse
   d. ☐ A medical test for substance abuse

12. Programme-driven treatment plans:
   a. ☐ Often include only services offered in the programme
   b. ☐ Often do not include referrals to other community services
   c. ☐ Often are individualised to match the client’s needs
   d. ☐ Both a and b are correct
   e. ☐ Both a and c are correct

13. The ASI is a good tool for treatment planning because:
   a. ☐ It measures the match between programme services and the client’s needs
   b. ☐ It measures problems in the major areas affected by drugs of abuse
   c. ☐ It is quick to administer

14. Treatment plans should include all of the following except:
   a. ☐ Problem statements
   b. ☐ Goals and objectives
   c. ☐ Description of the program services
   d. ☐ Specific interventions

15. List the 5 criteria for writing effective treatment plan objectives and interventions
