

Are you taking buprenorphine for opiate dependence?

The UCLA Outpatient Clinical Research Center (OCRC) is conducting a study evaluating pain response using a pain test (placing your arm in ice water) and test medications (morphine, oxycodone, hydrocodone, hydromorphone, buprenorphine, placebo).

- The study includes 7 testing visits (at least 3 days apart).
- Participants must be male, aged 20-50, who are currently taking buprenorphine under the care of a physician.
- Compensation is provided up to \$760 in gift cards or cash. Transportation assistance is also available.
