

Do you have a cocaine use problem?

UCLA Treatment Research Study

We're recruiting cocaine-dependent adults who have also regularly used opioids (such as heroin, codeine, oxycontin, vicodin, etc.) in the last year, or have a history of opioid-dependence:

- Medical/psychosocial assessments determine eligibility
- Participants receive medication & counseling for 8 weeks
- Participants are compensated for their time
- Participation is voluntary

For information, please call:

Jeff (310) 267-5333 or Katie (310) 267-2792
