## Appendix B: Explanation of Data File Export Format

Counties using their own technology must convert their survey data to a standard export format before they are sent to the State (i.e., ASCII text - fixed width). The data must also be left-justified (i.e., a field value should start at the column position specified in the data dictionary and fill in the column spaces from left to right), with the exception of CCN (County Client Number) which is right-justified with leading zero's added to fill vacant columns in county client numbers with less than 9 characters. Below are a few example records which illustrate what the export format should look like.

	CCN (County Client Number)									DOB (Client Date of Birth)							
Column #	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
<b>Consumer 1</b>	0	0	Z	1	2	3	4	5	6	0	6	0	9	1	9	5	5
<b>Consumer 2</b>	9	8	7	6	5	4	3	2	1	1	1	1	7	1	9	6	0
<b>Consumer 3</b>	0	Y	7	6	5	4	3	2	1	0	0	0	0	1	9	5	5

### CCN

*Consumer 1* and *Consumer 3* have county client numbers which are seven and eight characters wide instead of the nine characters allocated in the Data Dictionary (county client number widths vary across counties). Notice that the field values are right-justified with leading zero's added to fill vacant columns in CCN's with less than 9 characters.

### DOB

Notice for *Consumer 1* and *Consumer 3* the date values in the Date of Birth columns (positions 10-17) are in the MMDDYYYY format, have leading zeros, and do *not* include placeholders. For example, for *Consumer 1* notice that columns numbered 10 and 11 (which indicate month) and columns numbered 12 and 13 (which indicate day) each have a leading zero. *Consumer 3* has an estimated year of birth and zeros for month and day of birth. This conforms to the CSI requirements regarding missing date of birth information.

When the complete date of birth is unknown, as much of the date as is known shall be reported. If nothing is known, estimate and report an approximate year of birth and use zeros for the month and day. If only the age in years is known, calculate the year of birth and use zeros for the month and day. If the year and month of birth are known, but the exact day of birth is not, report the year and month only, and use zeros for the day.

### DHCS Data Portal Access

To access and download your county's survey data, login to the DHCS data portal (link below) and then follow the path specified using your county name.
